LANGUAGES

- Bosnian (fluent)
- English (fluent)
- German (basic)

EDUCATION

● Faculty of Information Technologies, Mostar 2025

- Bachelor's Degree in Information Technology

EXPERIENCE

● Full-stack Health Management System 2025 Personal Project

- Designed and implemented a health management platform with desktop and mobile clients using Flutter and ASP.NET Core.
- Implemented an asynchronous email notification microservice using RabbitMQ and EasyNetQ.
- Managed backend services using Docker containers and environment configuration for smooth deployment.

● Infrastructure Bootcamp: Linux to Kubernetes 2025 Nsoft, Mostar

- Gained hands-on experience in setting up and managing Linux environments.
- Configured MySQL and MongoDB database clusters.
- Built and deployed Docker images using Kubernetes.

● Full-stack Online PC Shop 2024 Personal Project

- Designed and developed a full-stack eCommerce platform for PC hardware using Angular and ASP.NET Core
- Implemented core features such as product catalog, shopping cart, and secure user authentication.

● IoT-based Smart Lock Management 2024 Personal Project

- Developed an IoT SmartLock system integrating an Angular frontend, ASP.NET Core backend, and Arduino-based microcontroller for hardware control.
- Real-time device communication using MQTT and WebSockets.

CERTIFICATIONS

● Infrastructure Bootcamp: Linux to Kubernetes - NSoft, 2025
